Made in Czech Republic  
CE certified

## VG WIRED TRI-CAMS COMBI

Tri-cams COMBI are the youngest gear in our family. Their wire is enhanced by a rotary shaft which extends the options for placement – place them as semi active wired VG tri-cam or as a nut in an upside down position that comes handy in more narrow cracks.

Made of extra durable aluminum alloy AlMgSi1.

VG WIRED TRI-CAMS COMBI ARE CE CERTIFIED AND TESTED.

## VG SPECIFICATIONS

Size	Color	Wire Ø mm	Height mm	Width mm	Range II* mm	Strength kN	Weight g
1	yellow	2.5	33	22	up to 20	7	35
2	orange	3	44	29	up to 27	9	55
3	red	3	55	37	up to 34	10	72
4	green	4	66	48	up to 43	20	123
5	blue	4	83	58	up to 55	20	183
6	purple	4	100	73	up to 67	20	275

\* Range II = maximum width of the crack for use as a nut - in an upside down position.
