VG SPECIFICATIONS

Size	Color	Length mm	Depth mm	Width mm	Height mm	Wire mm	Strength kN	Weight g
1	Brown	230	4 - 7	16 - 19	15	3.15 mm	10/6 kN	26 g
2	Yellow	230	5 - 11	21 - 24	20	3.15 mm	10 kN	33 g
3	Orange	230	7 - 15	23 - 27	25	3.15 mm	10 kN	42 g
4	Green	230	12 - 21	24 - 28	27	3.15 mm	10 kN	48 g
5	Blue	230	13 - 26	27 - 31	33	4.00 mm	15 kN	80 g
6	Red	230	13 - 28	29 - 34	37	4.00 mm	15 kN	92 g
7	Black	230	15 - 35	30 - 35	42	4.00 mm	15 kN	119 g
Set								440 g

*In the strength column, you may find two values. First value is the strength of the unit when it is placed with larger surfaces facing the rock, second value is the strength of the unit when placed with smaller surfaces facing the rock. If there is only one value, the strength is the same in both cases.

VG WIRED STOPPERS

Wired stoppers are another classic gear set. It consists of 7 pieces of stoppers, meeting most common placements sizes. It is ideal in cracks, mainly in vertical ones. Their heads are curved with convex shape for more versatile usage. Swaged wire is very stiff, enabling easy placement and retrieval. Swaged wire loops are color coded for easy identification and sizing. **Made of extra durable aluminum alloy AISi10Mg.**

VG WIRED STOPPERS ARE CE CERTIFIED AND CLIMBERS TESTED.
